

DPS-4919
COPY 1 OF 2

10 October 1958

SUBJECT: Firewel Field Service Supervisor

TO: Contracting Officer

25X1A In confirmation of recent telephone conversations with [REDACTED], it is requested that Firewel be authorized to provide a field service representative for permanent assignment to Laughlin AFB. This man will act as supervisor for the Firewel technical representatives presently at Laughlin and must have the experience and knowledge of personal equipment commensurate with this position as he will be serving there in an advisory capacity to both Air Force and contractor personnel.

The present contract under which Firewel provides technical representatives to FOG does not allow for services as described above. For this reason, you are requested to negotiate a new contract with Firewel for the services of one man from 1 October 1958 through 30 June 1959. Obligation of \$15,000 from FOG funds is authorized for this contract. Please request the contractor to advise this office of name, clearance, and reporting date of the man prior to his scheduled arrival at Laughlin.
